CULTURE FUTBOL ACADEMY (CFA) PROGRAM

Leadership Training through Athletics

Pay for the training, live with the leader and leadership experience!

CFA Mental Athletes are successful people!

QUALITY SOCCER, QUALITY LIFE

The MTAG Elite Soccer Club and its Culture Futbol Academy program is designed to make a difference in the lives of youth, families, and communities. Each child that enters the program is being prepared for life, career, and good citizenship. This is a youth athletic activity that is also a leadership program. It takes more than athleticism and great technical ability to become an elite athlete. Each player must develop personal agency, technical ability, and field intelligence. Knowing how to position themselves to be of best service for the team, and the ability to coordinate activities with others to achieve shared goals are the same skills that corporations, public offices, educational entities, and forward-thinking organizations seek to lead and manage their organizations.

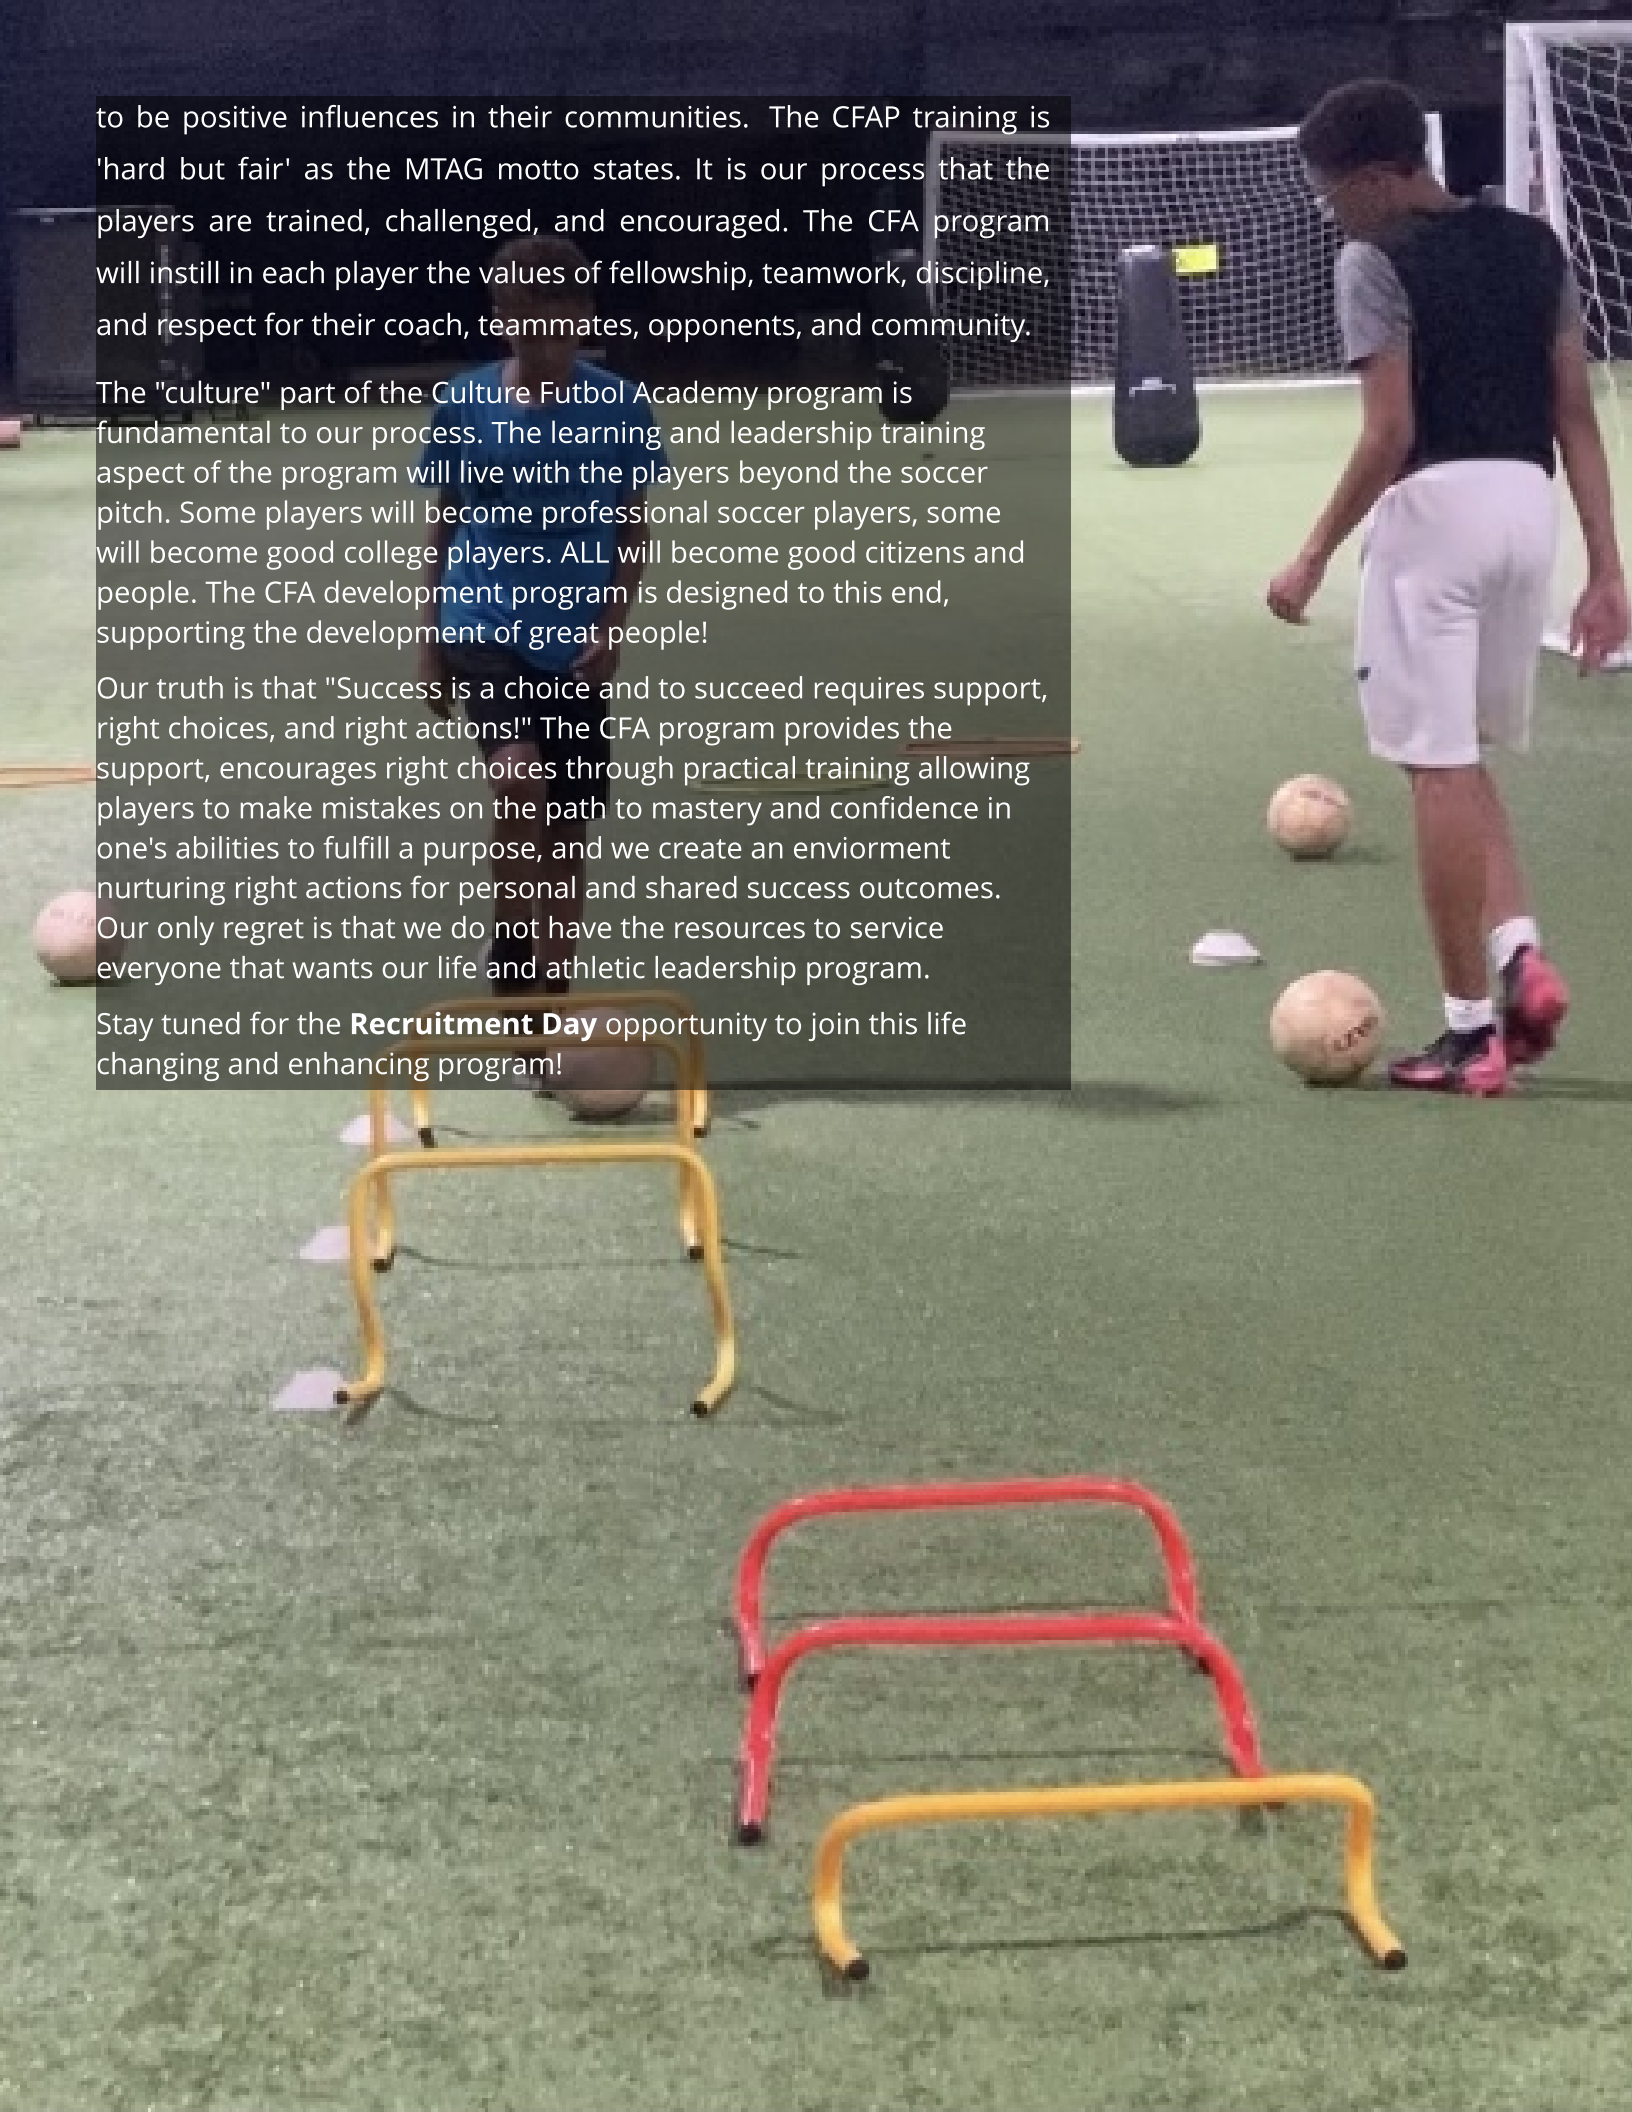

The More Than A Game (MTAG) concept is a practical approach to making a difference in the lives of the youth and their future families and community. This ideology coupled with CFA's aim to provide each chosen player with technical skills and the ability to properly position themselves on the field creates opportunities to develop players athletically as well as personally. The jewel of the system is that we are building strong players and individuals who will work

to be positive influences in their communities. The CFAP training is 'hard but fair' as the MTAG motto states. It is our process that the players are trained, challenged, and encouraged. The CFA program will instill in each player the values of fellowship, teamwork, discipline, and respect for their coach, teammates, opponents, and community.

The "culture" part of the Culture Futbol Academy program is fundamental to our process. The learning and leadership training aspect of the program will live with the players beyond the soccer pitch. Some players will become professional soccer players, some will become good college players. ALL will become good citizens and people. The CFA development program is designed to this end, supporting the development of great people!

Our truth is that "Success is a choice and to succeed requires support, right choices, and right actions!" The CFA program provides the support, encourages right choices through practical training allowing players to make mistakes on the path to mastery and confidence in one's abilities to fulfill a purpose, and we create an environment nurturing right actions for personal and shared success outcomes. Our only regret is that we do not have the resources to service everyone that wants our life and athletic leadership program.

Stay tuned for the **Recruitment Day** opportunity to join this life changing and enhancing program!

NO COMPETITION!

We do not state that there is NO COMPETITION because we have a chip on our shoulders. The reason that MTAG Elite Soccer does not have any competition is because we are a leadership development program achieving our goals through developing elite level soccer performance. The director of coaching, training, and recruitment is a performance expert. The soccer curriculum and its activities are consistent with reaching athletic success, personal development success, academic betterment success, and over all coping skills to handle sport and life.
